Cadamin™ Varna

Marine Ornamental Fish Feed

- 'Varna' is a scientifically evaluated, slow sinking marine ornamental fish feed.
- Constituents: 38% protein, 9% fat, 39% carbohydrates, 7% ash (minerals) and less than 2% fiber. Contents are marine protein, soy protein, wheat flour, oil vitamins, minerals, colour imparting nutrients like carotenoids from natural sources, immune promoters, probiotics and antioxidants.
- Availability in particle size: 0.25mm, 0.75 mm and 1 mm.
- Recommended usage: Feed 2-3 % of the fish body weight once in a day.

For further information please contact: The Director,
Central Marine Fisheries Research Institute

Cadamin™ Green Algal extract

Natural in every sense

Cadamin™ GAE

- A 100% vegetarian nutraceutical from nature for joint pain and arthritis
- GAE is a natural alternative to synthetic nonsteroidal anti-inflammatory drugs (NSAIDs) without any harmful side effects
- A highly cost-effective and indigenous product

PREFACE

Marine fishery resources are renewable and limited, therefore management of the harvest of marine fishery resources is necessary for sustained production from the sea. Towards this, it is very much essential to have reliable and updated knowledgebase on status of marine fishery resources, fishing effort expended, number of fishing villages, number of landing centres, fisherfolk population, their educational status, occupational status, infrastructure facilities existing in fishing villages, fishing crafts, fishing gears etc. For generating such information the Central Marine Fisheries Research Institute (CMFRI), Cochin has been periodically conducting frame surveys. The first marine fisheries census was conducted by CMFRI in 1980 with the support of Ministry of Agriculture. Second marine fisheries census on all India basis was conducted during 2005. Dynamic changes have taken place in the fishery and there were many management interventions introduced by the state and central governments from time to time. Changes have also taken place in the crafts and gear, fisherfolk population structure, availability of resources and their spread, infrastructure facilities, educational status etc.

In view of the dynamic nature of the marine fisheries sector, the policies and interventions need to be reviewed periodically. Reliable updated real time data on different aspects of marine fisheries is very much essential for developing suitable policies and interventions. The Department of Animal Husbandry Dairying and Fisheries (DAHDF), Ministry of Agriculture, Government of India during the 11th five year plan has taken up a central sector scheme on “Strengthening of database and Geographical Information System for fisheries sector” with Census on Marine Fisheries as one of the components which was assigned to CMFRI for the second time, considering the expertise and experience in conducting the massive census on all India basis.

The list of marine fishing villages for the different maritime states and union territories formed the frame for the census, which was updated with the most recent information received from the respective state fisheries departments. This information was validated by conducting a pre-census survey. In addition to the task of selection of enumerators for the conduct of census operation, information on number of households in each village was also collected during the pre-census survey. The necessary schedules for collection of information from marine fishermen households were developed by conducting a series of workshops at CMFRI headquarters, regional and research centers. The data collection schedules so developed was approved by the Technical Monitoring Committee set up by the DAHDF. Workshops and trainings were also conducted at different locations for the field level supervisors and enumerators regarding the filling up of different schedules. Instructions were also prepared and distributed to field level supervisors and enumerators on each item of entry in the schedules. The census was carried out through 2,074 enumerators in 3,288 marine fishing villages and information from 8,64,550 households were collected. The entire operation was carried out under the supervision at different levels by the scientists and technical staff of CMFRI. The schedules used for enumeration were bilingual, both in English and local language.

The final report is in two parts, Part I with information at national level and the Part II is for each maritime state. The scope, time frame, parameters, definitions, type of schedules etc. are also described in Part I. This document is a consolidated report for the state of Maharashtra, covering 456 marine fishing villages along the five coastal districts, which provides districtwise information on marine fishing villages, fish landing centres, population structure, educational status, socio-economic profile, occupation together with the ownership pattern of crafts and gears among fisherfolk. It is also intended to provide a summary of the crafts in the fishery and the infrastructure facilities available in the marine fishing villages in the state.

It is my pleasure to use this opportunity to thank the DAHDF and the Indian Council of Agricultural Research (ICAR) for having trust in CMFRI in its ability to take up the arduous task of carrying out the National Marine Fishery Census 2010. At this juncture I take the opportunity to thank the DAHDF for accepting the CMFRI national marine fisheries data (after reconciliation with states) as the official data of Government of India. I thank the state fisheries department for extending all the supports for the successful conduct of census. The sincere and hard work carried out by Fishery Resource Assessment Division staff of CMFRI need special mention and I thank each one of them. Special thanks are due for all the scientific, technical and administrative staff who were involved in one way or other in the conduct of census. Finally, appreciations also go to Dr. V. D. Deshmukh, Scientist-in-Charge, Mumbai Research Centre of CMFRI for the support and help rendered in completing this program successfully. I am sure this report will be of enormous use to all associated with the development of marine fisheries.

List of landing centres	323

SUMMARY

Marine Fisheries Census 2010 was carried out in five districts of Maharashtra namely Thane, Greater Mumbai, Raigad, Ratnagiri and Sindhudurg during April-May 2010. The scope, time frame and terms used are described in Part I of the Marine Fisheries Census Report. The Significant features are summarized below: Fishing villages and landing centres

Fishing villages and landing centres

- There are 456 marine fishing villages wherein fishermen reside. The maximum number was in Raigad district (168) and minimum was in Greater Mumbai district (30). The number of fishing villages in the remaining districts varied between 77 to 98.
- The total number of landing centres was 152, of which 36 each belonged to Raigad and Ratnagiri districts and the minimum was in Greater Mumbai district (18).

Population

- There were 81,492 fishermen families in the state with a population of 3,86,259. The maximum number of families was in Thane district (26,821) followed by Raigad district (24,026).
- Of the total fisherfolk population, Raigad district accounted for 32% followed by Thane (31%), Ratnagiri (17%), Greater Mumbai (11%) and Sindhudurg (9%).
- Among 81,492 fishermen families 91% belonged to traditional fishermen.
- The average number of families in a village was 179, with 847 persons per village.
- The average family size was 4.7 with a minimum of 4.4 in Greater Mumbai and a maximum of 5.1 in Raigad districts.
- Adult males constituted 35%, adult females 34% and children 31% of the marine fisherfolk population in Maharashtra.
- Women formed 49% of the population and the female to male ratio was 953 for 1000 males. This ratio was maximum in Ratnagiri (1010) and minimum in Thane (938) district.

Poverty

- There were about 15,509 households below poverty line.
- Among the five coastal districts, the largest proportion of fishermen families below poverty line was found in Sindhudurg (37%), Raigad (24%) and Thane (16%).

Education

- In Maharashtra, 69% of fisherfolk (excluding children below 5 years) were educated with different levels of education.
- About 29% of the fisherfolk had primary level of education, 34% had secondary, 6% had above secondary level of education and the rest 31% of the population was unschooled.
- The proportion of unschooled fisherfolk was highest in Raigad district.

Occupation

- There were 76,345 active fishermen of whom 62,614 were fulltime fishermen, 11,414 part-time and the rest engaged in fish seed collection.
- Among the occupied (1,93,278), 40% of the fisherfolk were engaged in active fishing and 60% in fishing allied activities.
- There were 1,11,276 fisherfolk engaged in fishing allied activities, such as marketing (41%), labourers (26%), making/repairing net (13%), curing/processing (9%) and peeling (6%).
- Women outweighed men in fishing allied activities accounting about 69%. Among the major fishing allied activities, women dominated in curing/processing (95%), peeling (93%) and marketing (84%).
- Among the different districts, maximum number of fisherfolk engaged in fishing allied activities belonged to Raigad (36%) whereas this was only 6% in Ratnagiri district.
- About 17% of adult fisherfolk engaged in marketing of fish. Among them, 44% belonged to Thane district, 21% to Raigad and 19% to Greater Mumbai.
- Nearly 5% of adult fisherfolk involved in making/repairing net. Among them, 65% belonged to Raigad district, 13% to Sindhudurg and 12% to Thane.

- About 11% of the adult fisherfolk were engaged in labour work. Among them 38% belonged to Raigad and Thane districts.

Religion

- Hindus constituted 85% of the fishermen families, Muslims (8%) and Christians (7%).
- In all the districts, fishermen families were dominated by Hindus.
- Nearly 16% of the fisherfolk families belonged to SC/ST. In Raigad district, 78% of SC/ST fisherfolk reside. In Ratnagiri district it was 7%.

Membership in co-operatives

- 23% of the adult fisherfolk were having membership in co-operative societies out of which 95% were in fisheries co-operative societies. This proportion was highest in Greater Mumbai and Ratnagiri district (98% each) followed by Thane district (96%).

Craft in the fishery

- There were 17,362 crafts in the fishery of which 13,016 were mechanized, 1563 motorized and non-motorized formed the rest.
- Trawlers (43%), dolnetters (31%) and gillnetters (23%) were the main crafts in the mechanized sector.
- Greater Mumbai (4,895), Ratnagiri (2,811) and Raigad (2,546) districts accounted for bulk of the mechanized crafts in Maharashtra.
- Of the total 5,613 trawlers in Maharashtra, 51% belonged to Greater Mumbai, 36% to Ratnagiri district, which altogether constituted 87%.
- Mechanized dolnetters were mainly observed in Thane district (41%) and Greater Mumbai (31%) districts, whereas majority of the mechanized gillnetters were observed in Raigad (40%) district followed by Ratnagiri district (21%).
- Greater Mumbai (30%) and Ratnagiri (29%) districts were the major contributors of non-motorized crafts while majority of the motorized crafts were operated in Thane (49%) and Sindhudurg (39%) districts.

Craft/Gear owned by the fisherfolk

- There were 18,185 crafts owned by fisherfolk, of which 9,493 were mechanized, 1,346 motorized and 7,346 non-motorized.
- Dolnetters accounted for 47% of the mechanized crafts owned by fisherfolk, followed by gillnetters (32%) and trawlers 12%.
- Mechanized crafts owned by fishermen were operated in other districts or states.
- Important gears owned by fisherfolk were bagnet, castnet, gillnet and trawl net. Sharing pattern was more visible in bagnets, gillnets and trawlnets.

Infrastructure

- In Maharashtra, 91% of the fishermen houses were pucca houses.
- There were 713 primary schools, 245 secondary schools, 93 colleges and 58 technical institutions in the fishing villages of Maharashtra.
- All the fishing villages were electrified, 93% had bus stop/bus stand and 85% of the fishing villages had cell phone coverage.
- There were 49 ice factories, 45 freezing plants, 33 cold storages, 10 curing yards, 9 peeling sheds and 5 boat yards in Maharashtra.
